

## **Margaret Schaw**

Margy has been described as a kind and loving human being who goes out of her way to help others and serving her community.

- She has proven herself to be an outstanding leader, serving many years as an office holder and Secretary for the last 5 years.
- She also proved herself to be an energetic, compassionate, and supportive leader in the many Club projects that serve our community.
- Apart from her seemingly boundless energy, perhaps her greatest attribute is the compassion, helpfulness and caring she freely 'hands out' to not only members of our Club but to the local wider community in general.
- She has been a willing, capable volunteer and committee member of the OngaOnga Historical Society and Museum who regularly attends the working bee's community events and is a rostered volunteer for Sunday Museum openings, Lawn Mowing and garden care duties.
- During Covid-19, she has travelled some distances to deliver much needed groceries and support to the elderly and to country folk.
